We want to have
a positive impact
on the planet!

Fostering green and social
entrepreneurship
in school education through
a virtual business
environment

Project Nr. 2022-1-PL01-KA220-SCH-000087194

Co-funded by
the European Union

The Green & Social StartUps project aims to develop innovative educational material on green and social entrepreneurship, adapted to the needs of our time, with elements adapted to the increased technological and environmental demands, as both technology evolves and climate change accelerates at breakneck speed.

entrepreneurial
mindset

What Are the Goals of the Green & Social StartUps Project?

- ↳ Discern the needs that exist today in order to foster an entrepreneurial mindset in students.
- ↳ Increase teachers' confidence and empowerment in teaching green and social entrepreneurship.
- ↳ Develop students' knowledge of green and social entrepreneurship so that they develop valuable knowledge and skills for later life.
- ↳ Boost students' confidence around their future professional lives, with a particular focus on people who feel disempowered.

What will be the results?

- ✓ A report on gaps and needs that exist in terms of green and social entrepreneurship in education.
- ✓ A teacher training program on the theory and practice of green and social entrepreneurship education.
- ✓ A school curriculum developing a virtual entrepreneurial environment.
- ✓ An inspiring series of real-life business stories.
